4、 **WLAN extensions** (for HUAWEI portable WiFi products with this function only)

HUAWEI portable WiFi expansion feature

can increase the hot coverage of WLAN. In

the WLAN hot spot area, HUAWEI will

automatically switch to WLAN WiFi and

save your data traffic。

A, click   in "HUAWEI Hilink"   APP, and enable WLAN extensions

B, connect the required WLAN hotspots

If the WLAN hotspot has been added before, when the WLAN hotspot is turned on, the

HUAWEI portable WIFI will automatically enter the network

This feature applies only to HUAWEI portable WiFi products that have this functionality

5、 **FAQ / The common problem**

the HUAWEI WiFi is not traveling, how to do?

Try to restart, if not, restore factory settings

GOD, no HUAWEI accompanying WiFi for the time, not on the connection

HUAWEI company in order to let HUAWEI accompanying WiFi power, if a period of time without any connected device, WLAN will automatically shut down

You can press POWER key to restart the WLAN, or directly off the function, enter the management in APP can be close to him

HUAWEI WiFi with various parameters are correct, the boot is even without the Internet, how to do?

This could be the beginning of the PIN code check function, enter the correct pin code in Huawei hilink APP it can be used as normal.

HUAWEI accompanied by WiFi can not open the machine, what should I do?

Don't worry, the battery hasn't been used for too long. The power is out. You just have to go with HUAWEI. WiFi will be able to turn on the battery after a while

HUAWEI accompanied by WiFi shutdown, so hot Oh, what should I do?

That's OK. HUAWEI has been working with WiFi for too long, and the local temperature will rise. His security prevention system will work, turn off the WLAN connection and power off. Give him a little air, and the temperature will drop down

Strongly recommend that you use APP to manage, more convenient, more efficient

You can also manage HUAWEI http//192.168.0.1 with WiFi, please select language English or chinese, default user name: admin. password: admin

Sometimes, IP will produce conflict and unable to log on, HUAWEI WiFi will be very smart to replace the IP address, you can try: http://192.168.1.1 or http://192.168.2.1 or http://192.168.3.1 or http://192.168.4.1 or http://192.168.5.1 or http://192.168.6.1 or http://192.168.7.1 or http://192.168.8.1 or http://192.168.9.1

With LCD screen HUAWEI portable WiFi, you can directly see the changes of the IP address on the LCD screen.

Thank you for using HUAWEI portable WiFi products
